

Equality Impact Assessment

Question	Response
1. Name of policy/funding activity/event being assessed	The funding activity is a call for grants the Faraday Institution as part of the ISCF Faraday Battery Challenge.
2. Summary of aims and objectives of the policy/funding activity/event	Faraday Institution is aiming to fund approximately four small scale projects (dependent on quality received) in the area of battery characterization. UK industry requires improvements in energy density, power density, cost, safety, lifetime, predictability and recycling of batteries to realise the improvements necessary to mainstream new battery based technologies. Proposals must clearly identify how new characterisation techniques and capabilities would support this objective.
3. What involvement and consultation has been done in relation to this policy? (e.g. with relevant groups and stakeholders)	This call invites proposals from researchers interested in scoping research projects in the above challenge areas which have been identified through a set of five regional workshops attended by ~200 people from industry, policy and academia.
4. Who is affected by the policy/funding activity/event?	There are no specific eligibility criteria so applicants are welcome from all career stages. PDRAs. There will be significant interaction with industry and the wider innovation landscape. Support staff will also be employed on the grant.
5. What are the arrangements for monitoring and reviewing the actual impact of the policy/funding activity/event?	Research outcomes are collected through Researchfish and progress reports through a quarterly data return.

As a funder of research, EPSRC remain committed to attracting the best potential researchers from a diverse population into research careers. The Research Councils have together developed the ambitious [RCUK Equality, Diversity and Inclusion Action Plan](#) to outline our collective aspirations for working with the research community, and partners throughout the sector. For policy changes, funding activities and events EPSRC will aim to:

- Select venues that are accessible and where possible accommodate any specific requirement in our planning and organisation of an initiative to support wider participation.
- Offers support available for people with caring responsibilities, further details are available [here](#)
- Clearly communicate the timeline and key milestones for funding activities
- Ensure attendees have an opportunity to raise any specific requirements in advance
- Support for flexible working of stakeholders
- Ensure diversity of peer review assessment and interview panels
- Abide by the Principles of peer review
- Unconscious Bias training for EPSRC staff and clear guidance for assessors

Protected Characteristic Group	Is there a potential for positive or negative impact?	Please explain and give examples of any evidence/data used	Action to address negative impact (e.g. adjustment to the policy)
Disability	Potentially negative		EPSRC will select venues that are

			<p>accessible and where possible accommodate any specific requirement in our planning and organisation of an initiative to support wider participation.</p> <p>EPSRC will offer support for people with caring responsibilities, further details are available here</p> <p>All interviewees and panel members will be asked to highlight any personal circumstances that will need additional support.</p>
Gender reassignment	No known negative impact		
Marriage or civil partnership	No known negative impact		
Pregnancy and maternity	Potentially negative		<p>EPSRC will select venues that are accessible and where possible accommodate any specific requirement in our planning and organisation of an initiative to support wider participation.</p> <p>EPSRC will offer support for people with caring responsibilities, further details are available here</p> <p>All interviewees and panel members will be asked to highlight any personal circumstances that</p>

			will need additional support.
Race	No known negative impact		
Religion or belief	Potentially negative		<p>EPSRC will select venues that are accessible and where possible accommodate any specific requirement in our planning and organisation of an initiative to support wider participation.</p> <p>All interviewees and panel members will be asked to highlight any personal circumstances that will need additional support.</p>
Sexual orientation	No known negative impact		
Sex (gender)	No known negative impact		
Age	No known negative impact		

Evaluation:

Question	Explanation / justification	
Is it possible the proposed change in policy, funding activity or event could discriminate or unfairly disadvantage people?	There has been no evidence found to show that this call would discriminate or unfairly disadvantage people.	
Final Decision:	Tick the relevant box	Include any explanation / justification required
1. No barriers identified, therefore activity will proceed .	✓	With the specific actions that need to be taken already integrated in the design of the call, this would be seen as this category rather than category 3.
2. You can decide to stop the policy or practice at some point because the data shows bias towards one or more groups		
3. You can adapt or change the policy in a way which you think will eliminate the bias		
4. Barriers and impact identified, however having considered all available options carefully, there appear to be no other proportionate ways to achieve the aim of the policy or practice (e.g. in extreme cases or where positive action is taken). Therefore you are going to proceed with caution with this policy or practice knowing that it may favour some people less than others, providing justification for this decision.		

Will this EIA be published* Yes/Not required (*EIA's should be published alongside relevant funding activities e.g. calls and events:	Yes
