

Digital Economy Sustainable Digital Society - Intent to Submit

EPSRC complies with the General Data Protection Regulations 2016/679 (EU) GDPR). We process and handle personal information according to these regulations. The personal information that you provide on this form will only be used for the processing of your application. The information will be viewed by EPSRC staff and those who are part of the decision making process. Your information will not be used/shared for any other purpose without your specific consent. EPSRC reserves the right to publish and share anonymized aggregated information with stakeholders. For further information on how your personal data is used, how we maintain the security of your information, and your rights to access that information we hold about you, please contact the UK Research and Innovation Information Rights Team.

The UK Research and Innovation privacy notice can be found on the UKRI website. This form has been developed using SmartSurvey. Data entered and submitted to EPSRC via the form will be held in SmartSurvey for a period in accordance with UK Research and Innovation policy.

1. Principal Investigator details *

Name *

Organisation *

2. Principal Investigator email address *

3. If applicable, please enter the names and organisations of any Co-Investigators, with name and organisation separated by a comma.

4. Research challenge that you are principally addressing (select one answer only) *

- Embedding environmental sustainability throughout digital technologies and services, taking into account technology/service design and end use, and the social, economic and/or policy context.
- Digital technologies and services to facilitate behaviour change at all levels of society, leading to decision-making that promotes environmental sustainability at scale.
- Digital technologies and services to enable one or more of the following: a circular economy; environmentally sustainable supply chains; an environmentally sustainable built environment; environmentally sustainable organisational processes within the public, private and/or third sectors.

5. Summary of proposed research (250 words) *
