

Marine Wave Energy Intent to Submit

1. Guidance

EPSRC complies with the General Data Protection Regulations 2016/679 (EU) (GDPR). We process and handle personal information according to these regulations. The personal information that you provide on this form will only be used for the processing of your application. The information will be viewed by EPSRC staff and those who are part of the decision making process. Your information will not be used/shared for any other purpose without your specific consent. EPSRC reserves the right to publish and share anonymised aggregated information with stakeholders. For further information on how your personal data is used, how we maintain the security of your information, and your rights to access that information we hold about you, please contact the Professional Support Unit Information Team. The UK Research and Innovation privacy notice can be found here <https://www.ukri.org/privacy-notice/>. The information in this survey for the Marine Wave Energy call is being collected to help EPSRC manage the call.

2. Investigator Details

Details of the Principal Investigator and any Co-Investigators.

1. Please provide the following information. If the Principal Investigator for the proposal changes EPSRC must be informed. *

Name of Principal Investigator	<input type="text"/>
Institution of Principal Investigator	<input type="text"/>
Email of Principal Investigator	<input type="text"/>

2. Please provide the Full Name and Organisation of the Co-Investigators. Please put one person per row. The Co-Investigators may change at any stage. No consultation with EPSRC is required.

--

3. Intent to Submit

Research Project Details

3. Please give a title for your proposal. (For minor changes there is no need to contact EPSRC. If there is a fundamental change to your project please do contact EPSRC) *

4. Please state the key area of Marine Wave Energy research that best fits your proposal

- Novel designs for niche applications
- Survivability and reliability of devices in the marine environment
- Power Take Off and control systems
- Modelling, forecasting and evaluation of wave energy resource
- New materials for Wave Energy Converters
- Other (please specify):

5. Please give a brief summary of your proposal in no more than 200 words. (There is no need to contact EPSRC for subsequent minor changes to your proposal. However if you decide to make fundamental changes to your proposal please get in touch with EPSRC.) *
