

Appendix III: Roadmaps and Strategy Documents for the Future of Civil Engineering Research

A number of roadmaps and priority setting reports related to the review have also been published in recent years. These include:

- “Sustainable Development Strategy and Action Plan for Civil Engineering”, Institution of Civil Engineers (2007)
- “The State of the Nation: Defending Critical Infrastructure”, Institution of Civil Engineers (2009)
- “The State of the Nation: Low Carbon Infrastructure”, Institution of Civil Engineers (in progress)
- “UK Low Carbon Transition Plan: National Strategy for Climate and Energy“, Department of Energy and Climate Change (2009)
- “Safeguarding our Future: The Importance of Construction Innovation and Research”, Institution of Civil Engineers (2004)
- “Grand Challenges for Engineering”, US National Academy of Engineering (2009)
